# Certification status

- First Certificate of Conformance issued to United Plantations Bhd
- Total programme of planned audits so far:
  - Over 32 mills
  - Over 1.5 m tons of CPO
  - Roughly 0.5 m ha
- First shipment of CSPO expected in Europe mid October

# Challenges ahead

- CPO market is roughly EU 25 %, India 25 %, China 25 %, ROW 25 %. How big is the market for CSPO, how to sustain incentives for oil palm growers to join?
- How to involve “the other markets”?
- With CPO prices at 1200-1400 \$/ton (was 300-500 \$/ton), sector wants to expand. How to promote yield increase instead, and how to direct expansion to deforested land?
- How to organise traceability for derivatives?

**Thank you**
