CONFERENCE ON THE DIGITAL ECONOMY & ECOMMERCE

“Unleashing the Power of Innovation, Reinventing Our Economy”

Thursday, 27 July 2017 • Sunway Resort Hotel & Spa, Selangor

CONFERENCE ON THE DIGITAL ECONOMY & ECOMMERCE

“Unleashing the Power of Innovation, Reinventing Our Economy”

With a smartphone in almost every pocket, it's time more businesses joined the digital race or else risk being left behind. The digital economy is developing rapidly worldwide. It is the single most important driver of innovation, competitiveness and growth, and it holds huge potential for entrepreneurs and small and medium-sized enterprises (SMEs). Unfortunately, less than 10 per cent of local enterprises are currently taking full advantage of new digital opportunities.

How businesses adopt digital technologies will be a key determinant of their future growth.

It's an economy of limitless opportunities for some and disruption and displacement for others. Many firms — such as Kodak, Blockbuster, Sears, and Blackberry — were unable to adapt, while others are thriving. According to a MIT Sloan research, the companies that are adapting to a digital world are 26 per cent more profitable than their industry peers.

New digital trends such as cloud computing, mobile web services, smart grids, and social media, are radically changing the business landscape, reshaping the nature of work, the boundaries of enterprises and the responsibilities of business leaders.

These trends enable more than just technological innovation. They spur innovation in business models, business networking and the transfer of knowledge and access to international markets.

WHY ATTEND?

Prime Minister Datuk Sri Najib Razak had in early August 2016 shared that digital economy contributes to 16.3 per cent of the GDP. Malaysia aspires to have a digital economy that contributes 20 per cent to the GDP by 2020.

As in other countries, trade is also being increasingly conducted in digital form in Malaysia. Products and services are transmitted digitally across borders. Moreover, data is the lifeblood of the 21st century enterprise across all sectors, including retail, media, manufacturing, finance, logistics and healthcare.

Malaysia has to take advantage of the growth opportunities presented by the Digital Transformation to the fullest of its potential, which is powered by new ways of collaborative networking where productivity and competitiveness are enhanced.

The Asian Strategy & Leadership Institute (ASLI) will organise an event to explore how Malaysia can maximise the interconnected nature of the Malaysia's digital infrastructure in order to truly capitalise and supercharge its digital economy both now and in the future.

CONFIRMED SPEAKERS

- **Datuk Hj Shamsuddin Bardan**
Executive Director, Malaysian Employers Federation
- **Mr. Neil Foo**
Chief Executive Officer of the Secretariat for the Advancement of Malaysian Entrepreneurs (SAME)
- **Mr. Ganesh Kumar Bangah**
Senior Advisor, HT Consulting (Asia) Sdn Bhd / Deputy Chairman, PIKOM
- **Mr. Victor Phang Yong Soon**
