GREATER KL & SMART CITY SUMMIT 2016
29th February 2016 | Kuala Lumpur

Transforming cities of tomorrow, today
Overview

With Malaysia gaining momentum towards high-income nation and entrance into global economy market as strong player, the sense of transforming the traditional networks and infrastructure that made current nation into efficient smart city is inevitable. These means of improvement is not focusing purely on digital, telecommunications and ICT transformation for easier access but it is beyond that. A smart city is not only about stylising available resources for carbon management, it means smarter transportation network and management, availability of multiple resources for power, uninterrupted water supply, waste disposable management and the list goes on. The end game for smart city transformations would result into more interactive, real time responsive city management, full usage of public spaces, safety and security upgraded, meeting the golden age requirement, and finally yet importantly, citizens who can live, play and work due to accessibility and resources. What was originally planned as engineering and architectural visions has transformed into science of city management and Malaysia is gearing towards achieving all the facets of smart and modern city.

The Greater KL and Smart City is looking forward to share new development in ICT, mobility, urban planning and building, collaborative smart society, sustainability, and urban resilience to engage and mobilise the development of smart cities in Malaysia.

09:00am Arrival of VIPs
09:05am Welcoming Remarks
   Tan Sri Dato’ Dr Michael Yeoh
   Chief Executive Officer / Director, Asian Strategy & Leadership Institute (ASLI)
09:10am Opening Keynote by
   YB Datuk Seri Utama Tengku Adnan bin Tengku Mansor
   Minister of Federal Territories (to be confirmed)
09:30 am SESSION ONE
   Sustainability consideration for the smart cities in Malaysia
   The transformation from traditional city management towards smart city is easier said done as it takes committed involvement from citizens towards solution providers and policy makers. Transformation of the city must address an array of intricate and complex urbanization challenges. Further, these efforts face many political, socioeconomic, and technical hurdles. Admittedly, there will be sense of competition even between cities of within the same country. This session will be begin with in-depth deliberation why role of public and private is important for the creation of smart city concept from the stand point of urban efficiency, governance, equitable growth, infrastructure and mobility
10:40am Morning Break
11:00am SESSION TWO
   Smart Connectivity for Smart City
   Traffic and transportation is a major challenge of any urban environment where density, infrastructure, public transportation, weather and layout all play a major role. With the current MRT, BRT, LRT extension , KTM revamp and the prestigious link between Singapore & Malaysia, connectivity & technology has never been given greater importance than currently. While each city has its own challenges, smart city urban movement focuses on how better access to information and services can lead to more efficient and effective mobility in the city. With everything available at a swipe of your phone , tablets and kiosks, this session will be examining the involvement of technology in our daily lives where we will understand that linear movement of urban transportation system in Malaysia
12:30am Luncheon Keynote by
   YB Datuk Abdul Rahman Dahlan,
   Minister of Urban Wellbeing, Housing & Local Government Malaysia (to be confirmed)
14:00pm SESSION THREE
   Realising the Vision of Greater Kuala Lumpur:
   In the Economic Intelligence Unit (EIU)'s 2014 Livability ranking, of 140 cities, Kuala Lumpur was placed at number 70, recording the second highest jump for any city over the last four years, In this latest ranking Kuala Lumpur was also placed seventh among the cities in Asia and second in ASEAN. As part of efforts to transform Kuala Lumpur into a world-class, top liveable city by 2020 where currently Dewan Bandaraya Kuala Lumpur ( DBKL) aims to increase greenery in the city by planting 100,000 large-coverage trees. The River of Life (RoL) project which is envisaged to breathe new life into the city through the revitalisation of the Klang and Gombak Rivers into a Heritage and Commercial Centre is on track, reaching 37 per cent against the annual target of 39 per cent where completion is expected by 2017 3rd quarter. With the transportation system up to par and the state of Selangor joining the effort to push Greater KL into smart city concept, where the roads and are highways are revamped and resized to accommodate the growing population. This session will examine the actions that’s has taken place so far, the challenges faced and the multitude of opportunities that that will open up
15:30pm SESSION FOUR – Case Studies
   Jump-starting : We are in this together
   This session is purely on how the development of the awareness in the community in order to kick starts the needed changes towards smart city. There has been new cities as well as traditional cities in Malaysia that has been working towards the smart city goal and the case studies will be determine how much nearer is Malaysia towards achieving the smart city concept actualization
17:30pm End of Forum and Refreshments
